

(IO)² Seminar Schedule, Fall 2021

Organizers: Nick Buchholz, Mar Reguant, Rob Clark, Ashley Swanson

The Interactive Online IO seminar—aka (IO)²—will meet every two weeks during Fall 2021. Seminars will take place on 9/14, 9/28, 10/12, 10/26, 11/9, and 11/23, 3-4:15pm ET.

The lineup is below. The seminar is open to everyone except Zoombombers, so feel free to share and advertise with faculty, students, and any other interested parties.

To participate in the seminar, you will need to click on this [link](#). The password is “fallioio” without the quotation marks.

This Fall, IO² will continue to be a regular Zoom meeting. This will allow for better interaction between the speaker and the participants. For this reason, we will ask participants to leave their webcams on and to ask their questions during the presentation (though speakers may plan for specific question breaks).

We will use this page for any future seminar announcements or to address any technical issues, so bookmark and refresh this page.

- 9/14 Ebehi Iyoha (**Federal Reserve Bank of Boston**): “[Estimating Productivity in the Presence of Spillovers: Firm-level Evidence from the US Production Network.](#)”
- 9/28 Jesse Shapiro (**Brown University**): “[Bounds on a Slope from Size Restrictions on Economic Shocks,](#)” joint with Marco Stenborg Petterson and David Seim.
